DR. ABORN,

From San Francisco.

Now Professionally at the

St. Charles Hotel

PORTLAND, OREGON.

EVIDENCES OF HIS SUCCESS IN CURING

CATARRH,

And other Chronic Diseases that have Resisted the Ordinary Modes of Treatment.

Letter from E. F. Murdock, Esq., Editor of the San Jose Daily Patriot.

SAN FRANCISCO, CAL., NEW YEAR'S DAY, 1871.

DR. ABORN, San Jose—Dear Sir: I have felt that our business and social relations for the last two months were of such a character as to warrant me in addressing you this testimonial of my esteem for you, professionally and socially. Your remarkable success in the treatment of my son, Frank, a youth just entering on manhood, who had been afflicted for some time with an obstinate catarrh and throat disease, was but an additional proof of the distinguished reputation you had achieved in your profession before your advent to California, and disposed me to repose that reliance upon your scientific skill in the treatment of your specialties, which was so fully sustained by the success of our prescriptions in all cases under your treatment in this city and neighborhood.

Allow me, also, to express my thanks for the liberal and gentlemanly spirit you displayed in all of our business relations. As the proprietor of the San Jose *Daily Patriot*, I published for you many advertisements, all of which were promptly paid for, and in a manner peculiarly agreeable.

I do not know whether this letter will be of any use to you, but I have felt impelled to write it, as well, as to assure you of my sincere esteem and cordial wishes for your happiness and prosperity.

Respectfully yours, etc.,

P. D. MURDOCK,

Editor and Proprietor *San Jose Daily Patriot*.

Letter from Wm. B. Lake, Esq.

SAN FRANCISCO, January 19, 1871.

DR. ABORN—Dear Sir: Permit me to add my testimony to the numerous public assurances you have received while here, of your skill and success in the treatment of those diseases which you make specialties in your practice.

My boy, now eleven years of age, had been seriously troubled for several years, with catarrh, when put under your treatment; when he was immediately relieved, and has been steadily improving ever since, until now he seems almost entirely recovered, and we feel we owe to your skill his rapid convalescence, and I assure you your name will ever be held in grateful remembrance by your young patient, and his parents and friends.

Yours respectfully, WM. B. LAKE,

No. 1028 Hyde Street, San Francisco.

LAW OFFICE OF R. P. & JAMES CLEMENT,
No. 61 Exchange Building,
SAN FRANCISCO, CAL., January 22, 1871.

DR. ABORN—Dear Sir: Understanding that you are about terminating your residence and practice in this city, I have thought that possibly you might be pleased to know that the little school girl, Mary Morris, whom you treated some months ago at my request, and who, you will remember, was nearly deaf and seriously afflicted with some bronchial trouble when she went to you, is now ENTIRELY CURED, both of deafness and bronchial affection, and declares that she was virtually cured on her first visit to you. She and her parents are very grateful to you, and think that it is wholly due to your skill that her hearing and health are restored.

Yours truly, R. P. CLEMENT.

Card from Charles N. Fox, Esq.

[Office of Campbell, Fox & Campbell, Attorneys and Counselors at Law, No. 528 California street.]

SAN FRANCISCO, Feb. 17th, 1870.

Were it not for the good which I hope it may have done to suffering humanity by informing them where they could find relief, I should regret having given Dr. Aborn my little testimonial of the tenth of January, for the demands made upon me, in answering inquiries in regard to him, have been more numerous than profitable to me; and still they come.

To save the necessity for further personal application, let me say to those who care for my opinion, that time has only strengthened my first favorable opinion of Dr. Aborn, and my confidence in the permanency of the cure effected by him. All my difficulty arose from catarrh, which had become of a serious character, affecting the hearing and the throat, giving me at times acute pains, and at others rumbling sounds in the ears, frequent headaches, and so seriously affecting the bronchial tubes as to sometimes disable me from public speaking. It is also gone, and the change was produced, not by any species of charlatanism, as many suspect of the Doctor, nor by the absurd practice of putting medicines into the stomach which was not affected, but by the skillful application of medicinal remedies directly to the parts which were diseased. I have found the Doctor a gentleman in his intercourse and business, and the judgment that I have formed of him professionally is, that he is a regular physician, thoroughly acquainted with the anatomy of the human body, and possessing a remarkable degree of skill in the treatment of those diseases which he makes his specialty.

CHAS. N. FOX.

Another Wonderful Cure of Asthma and Bronchitis, after all other Methods had Failed.

SAN JOSE, March 6, 1870.

This is to certify, that I have been afflicted for over three years with Asthma and Bronchitis, and had tried every means in my power to effect a cure, and was told by my family physician (an honest and good doctor) that I could not be cured; and I became so weak that I could scarcely walk up a flight of stairs, and I happened to see a card from Lawyer Houghton, stating that he was being treated by Dr. Aborn, No. 22 Kearny street, San Francisco, and was getting great relief, and I thought I would go and see the Doctor; but I had little hope of getting relief, much less a cure. That was about the fifteenth of January, 1870, and to-day I claim to be a well man. I am fifty-nine years old. My mother and sister died with the same disease. I send this card, unsolicited, to Dr. Aborn, thinking that it might meet the eye of some of my acquaintances that might be suffering in the same way. J. W. HARDWICK.

DR. ABORN

Has WONDERFUL SUCCESS in curing CHRONIC DISEASES after the usual routine of the profession have failed, and the many testimonials in his possession from prominent and influential men who are well known will substantially prove.

NO PAINFUL OPERATIONS.

DR. ABORN does not subject his patients to any painful or unpleasant operations; his treatment is mild, and safe for the most delicate child. The afflicted are hereby informed, that after the first visit, for many of the diseases which he makes a specialty, they can take the treatment home and use it until cured, without pain or interruption to their usual avocation.

DR. ABORN,

FROM SAN FRANCISCO,

Whose remarkable success in curing Chronic and Obstinate

DISEASES OF THE

EYE, EAR, HEAD

THROAT AND CHEST,

That have for years resisted the ordinary modes of treatment, is so well known,

HAS ARRIVED IN

Portland, Oregon,

TO PRACTICE FOR A FEW WEEKS.

Rooms at the St. Charles Hotel.

DR. ABORN

Has unprecedented success in the treatment and cure of DEAFNESS, DISCHARGES FROM THE EARS, BUZZING NOISES IN THE HEAD, CATARRH, ASTHMA, BRONCHITIS, and all THROAT, BRONCHIAL and LUNG AFFECTIONS. Also, all Diseases of the Eye, and Derangement of the Blood, Heart, Stomach, Liver and Nervous System.

DEBILITY.

All cases of Nervous or General Debility, Premature Decay, etc., are treated by DR. ABORN without a failure. Many cases, after a few weeks' treatment, are scarce recognizable, such a change having been wrought in them; as they have invariably in a short time gained from ten to thirty pounds in weight.

Convalescence and recovery are rapid under his new and scientific mode of treatment. But very few, if any, men of his age in the profession have been so universally successful as DR. ABORN. Combining all his knowledge, skill, and experience in his special branch of the profession, all that the inventors of the age or the late discoveries of medical science have brought to the aid of the modern practitioner, DR. ABORN is prepared to treat with almost unfailing success all such cases as may come under his care. He has, within the past few years, introduced into his practice many new and important remedies, with novel and effectual modes of application, with which, during his professional career, he has produced the most successful and satisfactory results.

DR. ABORN, for twelve years past, has devoted himself exclusively to office practice for the treatment of obstinate chronic diseases, especially such cases as have resisted all the ordinary modes of practice. He has thus been enabled to treat at least five times as many patients annually as he possibly could had he treated them at their residences. Thus, he claims twelve years office practice, exclusively devoted to special chronic diseases—more than equivalent to sixty years' experience in a general practice.

Every physician is more successful in a certain class of diseases than in others; and he who devotes his thoughts to a specialty is better prepared to treat it in that particular than one who is engaged in general practice.

NO PAINFUL OPERATIONS

DR. ABORN does not subject his patients to any painful or unpleasant operations; his treatment is mild and safe for the most delicate child. The afflicted are hereby informed, that after the first visit, for many of the diseases which he makes a specialty, they can take the treatment home and use it until cured, without pain or interruption to their usual avocation.

Wonderful Cure of Disease of the Eye. A Daughter of U. S. Carter, Grain Dealer.

SAN JOSE, May 30, 1870.

DR. ABORN—DEAR SIR: I deem it my duty to make the following statement. For the past six years my daughter (now eight years old) has been afflicted with sore eyes, and frequently unable to read, or even to distinguish one object from another across the room. She is now perfectly cured, after having been treated by you for three weeks only. I would also state that all previous treatment had proved unsuccessful; also that the eyelids were so affected that the lashes were falling out. Since, under your treatment, they have grown in perfectly natural, so that now her eyes are perfectly natural, bright, and of a healthy appearance. I consider it a remarkable cure, and am agreeably surprised at the result of your treatment, as I had given up all hopes of having her cured. Truly yours, J. S. CARTER.

Lieutenant-Governor Holden's Card.

SAN FRANCISCO, April 6, 1870.

Having suffered nine or ten years with a throat and bronchial affection, I applied to Dr. Aborn, No. 22 Kearney Street, who has treated me for about two months. I feel it my duty to state, for the benefit of those afflicted in the like manner, that I found immediate, and I think, permanent relief from his treatment, and that I consider his treatment scientific, and that the doctor is master of his profession. WILLIAM HOLDEN.

From Hon. James A. Johnson, Member of Congress.

TO WHOM IT MAY CONCERN: Having been a sufferer from catarrh and a severe bronchial affection for more than seven years, and having found great relief by submitting myself to Dr. Aborn's treatment a few days only, I take pleasure in saying Dr. Aborn, with his new and improved instruments for local application to the lungs, air passages, eyes and ears, should encourage all who are afflicted in those parts to cherish a lively hope that they may find quick and permanent relief.

Very truly, JAMES A. JOHNSON, M. C., Cal.

Card from William Hoskins, Notary Public, Oakland.

DR. ABORN: I take pleasure in bearing testimony to your skill and treatment for Catarrh and Bronchial affections, having suffered for months and wasted in flesh from incessant coughing, night and day. I now find myself cured as the result of your treatment, and I have gained thirty-three pounds in weight.

WM. HOSKINS.

Oakland, Sept. 3, 1870.

A Remarkable Cure.

SACRAMENTO, Cal., September 20, 1870.

This is to certify, that for ten years I have suffered almost death with Nasal Catarrh, Bronchitis and Neuralgia of the head. The pains in my head were almost unbearable. My hearing was very much impaired, with a disagreeable noise in my ears. My eyesight was also impaired. In May last, I placed myself under the treatment of Dr. Aborn, No. 22 Kearney Street, San Francisco, Cal., and in a short time the Bronchial affection was cured, my eyesight was fully restored, and my hearing improved. It is a pleasure in bearing testimony to the skill of Dr. Aborn, in his successful treatment of these diseases. JOHN ALLISON,

Late Deputy Sheriff and Constable of Grass Valley Township, Nevada County, Cal.

A Positive Proof that Deafness and Discharges from the Ears can be Cured.

On the 22d of January last, I applied to Dr. Aborn, at 22 Kearney Street, San Francisco, and placed myself under his treatment for deafness and discharge from my left ear, that had baffled the ability of several physicians. Under Dr. Aborn's treatment I began to improve at once, and in six weeks time, I was entirely well. I can now hear as well as I ever could, and the discharge is entirely cured, and have had no symptoms of a return of the disease since. As I am now satisfied that the cure is permanent, I cheerfully give this testimony to the skill of Dr. Aborn, who is now in our city, practicing at the Orleans Hotel. JOHN SIMPSON.

Fireman Sacramento *Union*, residence corner Ninth and E streets.

SACRAMENTO, Sept. 10, 1870.

By Overland Telegraph.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO AUGUST 21.

BY ATLANTIC CABLE.

VERSAILLES, August 19.—In the Assembly today the committee on the army bill made a report recommending its passage. The bill as returned to Chamber, makes military service compulsory, and allows no right to procure a substitute. It prohibits soldiers from voting at political elections, and dissolves the National Guard throughout the country.

LONDON, August 19.—A dispatch from Gumbinnet, East Prussia, in town sixty-six miles east of Konigsberg, says the cholera has appeared in several districts on the German side of the Russian frontier.

A correspondent of the Prussian *Cross Gazette*, writing from Vienna, states that the controversy between Prussia and Roumania in regard to the affairs of the Strasbourg railway bonds, is progressing peaceably.

It is reported that the President of the Swiss Confederation here has appointed M. James Stampfli, senior Federal Councillor and formerly President of the Republic, arbitrator on the part of Switzerland, under the treaty of Washington.

PARIS, August 20.—In the court martial at Versailles, the examination of witnesses was concluded yesterday. The argument for the prosecution begins to-morrow.

The number of deaths in Paris last week were 623; one from cholera.

Rauchas has gone abroad.

LONDON, August 20.—Garabaldi has almost recovered from his severe illness.

MADRID, August 20.—Prince Humbert of Italy, is expected to arrive here Friday.

It is reported that in the forthcoming budget the estimates for the support of the church and the maintenance of public worship will be reduced.

NEW YORK, August 20.—A correspondent of the London *Times*, writing from Paris in regard to the trial of the communists, says the prisoners affect great indifference, and seem to regard the whole affair as an elaborate and bad practical joke, got up for their especial benefit. They struck mock heroic attitudes and then glanced around to see whether they had produced the desired effect. They laughed, and talked at the moment when the indictments charging them with the offenses were read. Ferrier was particularly tickled at the stress laid on his complicity in the murder of hostages. Little interest is shown by the public in the trial.

Parliament Adjourned.

LONDON, August 21.—The Parliament is prorogued by Royal commission. The following is the most important of the Queen's speech:

The time has now arrived when I am enabled to release you from your attendance in Parliament and commend your unwearied labors for public need. I acknowledge the loyal readiness with which you have made provision for the Princess Louise and Prince Arthur. The great events and changes which have recently occurred in Europe do not compromise friendly relations existing between the United Kingdom and Foreign Powers. With special satisfaction I refer on the present occasion to our relations with the United States. By the Treaty of Washington modes of settlement has been fixed upon for several questions which had long remained in dispute with the United States government. The President concurred with me in the application that the principle of amicable reference which was proclaimed by the Treaty of Paris and which I rejoice to have opportunity of recommending by example. We also agreed in the adoption of certain rules for guiding the mutual conduct of neutrals, which may, I trust, obtain general recognition and form a valuable addition to the code of international law. I place full reliance upon the disposition of America to carry forward with cordiality the subsidiary arrangements which were determined on for the execution of the treaty. I shall apprise the Parliament of Canada of the provisions which require its consent, which, in my view are highly conducive to the interest of the Dominion. On these provisions, however, Parliament will pass an independent and final judgment.

The Government of France has signified its desire to alter some provisions in the commercial treaty of 1860, which is now terminable upon 12 months' notice by either country. I am anxious to meet the wishes of a friendly power, and give scope to measures calculated to meet the legal exigencies, but I shall witness with concern any change of a nature to restrict that commercial intercourse between two countries which have done so much for closer union.

The Chancellor read the speech and declared Parliament adjourned to November 7th.

LONDON, Aug. 21.—The potatoe blight has developed to an alarming extent in Ireland. The third crop is almost ruined.

John Bright has to a great degree recovered his health, and will certainly resume Parliamentary duties session.

Queen Victoria, who remains at Balmoral, is again ill.

The centenary of Beethoven, postponed from last year on account of the Franco-German war, was celebrated with festivities and imposing ceremonies, at Bonn, the composer's birth place, on Saturday.

EASTERN STATES.

NEW YORK, August 20.—At a recent meeting of the Canadian Union Club determined to hold a celebration in this city on October 12th, the next anniversary of the discovery of America by Columbus.

For the purpose of showing his gratitude, a Canadian arrest of annexation asks the citizens of the United States for support of the scheme, was arranged that the deputations of Canadians living in this city should visit Montreal, the eminent statesman and annexationist of Lower Canada, to request him to open the first mass meeting ever held in New York on the United States, and attend the proposed celebration.

Prof. Bachelder, President of the Canadian Union Club, leaves this city for Canada, to organize, if possible, annexation meeting in the principal towns.

CHARLESTON, S. C., August 20.—The heaviest rain fall known here for, many years fell within the last 48 hours. More than 8½ inches of rain fell. This was followed by a severe gale.

Mysterious Disappearance.

CHICAGO, August 20.—Isadore Kyleberg, editor of the *Justia*, a semi-monthly Scandinavian paper of this city, mysteriously disappeared last night, and nothing has been seen of him since. He has been exposing the swindling operations of Scandinavian emigrant runners, boarding house keepers and employment agents with which the city is infested. He has been threatened on this account. It is believed by many that he has been murdered. Detectives are searching for him.

The Dublin Riot.

NEW YORK, August 20.—A Dublin correspondent of the London *Times* of the 9th, describing the Dublin riot, says P. J. Smith, member of Parliament, was proceeding with his speech, when suddenly there shot into view round the corner of Wellington Monument a considerable body of police, truncheon in hand, and without a word of warning began to strike mercilessly on all sides. If an impartial inquiry be instituted by the Government, I believe it will be found that throughout the period during which so many deplorable wounds were given by the police no resistance was offered, and none could be offered. No defence was attempted beyond the use of umbrellas in some cases to ward off the blows of loaded truncheons. Everyone was assailed. Newspaper reporters, conservatives and liberal—many with notebook and pencil in hand, and some personally known to the police for years past as members of the press, were as savagely attacked as anyone else. Flying victims were stripped in order that while on the ground they might be bludgeoned. A person was quietly walking away alone when some policemen run at him and one then dealt him a fearful kick on the hip, which staggered him, and before he could utter a cry another blow from a truncheon felled him to the earth gory with blood.

New York News.

NEW YORK, August 20.—From the evidence, the Coroner is satisfied that Mary Kelly, supposed to have died of Asiatic cholera, really died of cholera morbus.

The foot and mouth disease has broken out among cattle and hogs in Warren county, in this State.

At a large and enthusiastic meeting of Italians to-night in reference to a procession, letters were read from prominent Fenians expressing sympathy with the object of the demonstration, and promising that in case other nationalities other than Italians are allowed to participate in the procession, a large deputation of Irishmen will attend.

Terrific Gale.

SAVANNAH, Ga., August 20.—A terrific gale, accompanied by a heavy rain, occurred Friday and Saturday. Railways were badly damaged and tracks washed away. No communication south of station No. 7. On the Atlantic and Gulf Central Railroad there are two washes—one near the city and another six miles distant. No regular trains have arrived since Friday night. Many buildings are damaged and great damage done to the rice crop.

NEWPORT, R. I., August 19.—It is rumored here that four escaped Sing-Sing convicts are lurking in this vicinity for the purpose of assassinating Judge Bedford, of New York, who sentenced them. The Judge is the guest of Commodore Osgood on the yacht *Columbia*.

In compliance with the request of citizens of Los Angeles, August 20.—By order of Major General Schofield the soldiers under Col. Brown, at Drum Barracks, will leave here to-morrow for the old Palo Mission, 30 miles from Los Flores, to quell disturbances among the Indians and reestablish Manuelo as Captain General of the tribes in that region.

Edward Stewart, shot at Los Nietos a few nights ago by Domingo Rues while gathering melons, died yesterday from lockjaw. The affair will be investigated.

The Democrats will hold a grand barbecue at Los Nietos, commencing on the 25th inst.

Steamer *California* sailed this evening from San Pedro for San Francisco.

NEVADA.

VIRGINIA, Aug. 20.—About 3 o'clock this morning a fire broke out at No. 24 D street. It spread so rapidly as to get beyond control until it swept everything on the west side of D street, from Union Hall to Sutter avenue, both sides of E and the west side of F streets for the same distance, and causing considerable damage on the west side of D street. Loss $150,000, on which there was some insurance, but the amount cannot be ascertained to-day. About 50 buildings were destroyed, all wooden. The fire is supposed to be the work of an incendiary. A young man named Hall Shorn has been arrested as the guilty party.

A shooting affray occurred to-day at Gold Hill, between Andy Gorham and a man name unknown, by which an innocent party named Henry Lefower was shot through the fleshy part of the thigh.

VIRGINIA, August 20.—About 5 o'clock this afternoon two men, named Traiser and Malone, had a fight on the Divide, in which the former cut the latter with a knife across the abdomen, causing his intestines to protrude.

ELKO, August 20.—A passenger on the train this morning, offered a ten dollar greenback at the Elko House to pay for his breakfast. It proved to be counterfeit. It is said that there were three or four on the train interested in passing counterfeit notes.

AUSTIN, August 21.—On Saturday night two prisoners, named Jones, Phillips and Charles Fowler, escaped from jail. Yesterday morning some Indians, whom the Sheriff had employed to assist him, came upon the fugitives near Simpson's Park, when a fight ensued, in which Fowler killed Phillips and made his escape. No blame is attached to the Indians or Sheriff, as the killing appears to have been done in self-defense.

ORENA, Aug. 21.—The Battle mills and shingle works at Rye Patch, seven miles east of here, were entirely consumed by fire last evening. The fire was accidental. Loss estimated $40,000. Insured in the Imperial Insurance Co., of San Francisco.

BY STATE TELEGRAPH.

Bohemian Quartz Mines.

EUGENE CITY, August 21.—Joseph Knott, proprietor of the newly erected quartz mill, on the Excelsior ledge, Bohemia District, passed through here, last night, with 37 pounds of amalgams from crushing 16 tons of surface rock.

Fire at Salem.

SALEM, August 21.—A fire broke out in the cellar of Simpson & Co., at 12 M., and it is to the *Statesman* office, completely destroying it, shop, and damaging the adjoining building. The total loss will not exceed $2,000. The fire department did well to stay the flames.

Fire at Oregon City.

OREGON CITY, August 20.—The McClain House, in Rockville, adjoining Oregon City, and occupied by Mrs. Finney, was burnt to ashes to-day, at o'clock P. M. A few articles of furniture and clothing were all that were saved. The cause of the fire was accidental.

Losses by the Dalles Fire.

[From the Dalles Mountaineer.]

The loss falls mostly upon our manufacturing and working classes, as this portion of our town contained all the blacksmith shops, wagon and lumber factories. The most of these mechanics have not only lost all their tools, but residences, furniture and clothing, and it is an unfortunate fact, that a great many of our most deserving citizens are left in destitute circumstances.

The loss to our city is very great, and it will be a long time before we recover from it.

The following is a list of the losses as near as we were able to learn them:

Thomas Gordon, residence	$1,000
Harry Kershaw, store and furniture	2,000
E. E. Fitzgerald, warehouse, etc.	3,000
Frank Loughlin, 2 houses	1,500
Mrs. Lord's house	1,500
Dr. C. B. Brooks, furniture and library	1,200
T. Miller, house, insured for $1,200	1,200
Mrs. Ayers, house and furniture	1,500
J. A. Campbell, house and furniture	1,500
Lew Henderson, warehouse	1,500
J. Miller, residence	1,000
Mrs. Lee Holland, residence, etc	2,000
R. H. Wood, 3 houses	2,500
C. H. Curtis, residence	800
C. C. Stevens, residence, etc	700
T. Eastman, furniture and clothing	500
Mrs. Williams, residence, etc	1,500
M. W. Chapman, house	1,500
H. Gibbons, furniture, house, etc	300
J. Becker, house and two shops	1,000
Mrs. Cooper, house insured $600	1,000
L. L. Rowland, house	250
Mrs. J. Whitney, house	300
George A. Lee, furniture, jewelry shop	2,000
W. Degener, house	600
Fisher and Harman, 2 houses	700
H. Isaacs, house	150
Samuel Brooks, furniture	200
Wilson Grant, furniture	200
Washington Territory; Mrs. J. Carter, Portland.	
The injunction on the sale of lots in Yerba Buena Park, by the new City Hall commissioners, was heard to-day, and was finally dissolved by order of Judge Wallace in the Supreme Court. The sale will now take place and the work of preparing rock from Telegraph Hill for the foundation to the new City Hall will commence to-morrow.	
The arrested U. S. gold coin, seized when Chas. Buser was convicted and sentenced to the State Prison, was to-day levied on for confiscation by order of Judge Sawyer of the United States Circuit Court.	
The Democrats joint convention is in session and expect to have a long session to-night in appointing a new committee. The sensational question remote as it is, appears to be the most prominent issue in the selection of a new committee.	
At the stallion race at Agricultural Park to-day, four horses trotted mile heats, best 3 in 5. First heat won by Alexander. Time—2:38½; second, Hiram Woodruff, 2:37½; third, Woodruff, 2:37; fourth, Woodruff, 2:37½. There was a fair attendance and the show of stock, particularly neat cattle, was among the best ever seen on the Pacific coast. The winning horse was the last on the list.	
The attendance at the fair this evening was much larger than heretofore.	
A dispatch from Los Flores, this afternoon, says the Indian Captain General Manuelito and party have fled to San Luis and they are pursued by Olegario and his band. If they meet a battle will certainly ensue. No demonstrations have been against whites so far as known. The dispatch says this state of affairs has grown out of the unfortunate appointment of Olegario as Chief by the County Judge of San Diego.	

INTERIOR CALIFORNIA DISPATCHES.

SACRAMENTO, August 21.—At the annual meeting to-day of the stockholders of the Central Pacific railroad, the following persons were elected Directors: Leland Stanford, Mark Hopkins, C. P. Huntington, E. H. Miller, Jr., C. H. Cummings, W. B. Brown, and Robert Robinson. The latter succeeds Charles Crocker. The same are Directors for the Sacramento Valley railroad.

Eight hundred tons of freight was received from San Francisco to-day.

SUCKER FLAT, August 20.—Last night about 10:30, a fire broke out in the kitchen of Barney Smith's hotel, at Smartsville, which threatened serious results to the whole town, but was fought by the men of this place and Smartsville. The damage was light.

SAN DIEGO, August 20.—The Sheriff of this place has received a letter from residents of Monserral, in the northwestern part of this county, asking protection from the Indians, known as the old Mission Indians. They have driven off their old chief Manuino, who has for years recognized as Captain General of several tribes, and they threaten extermination to all white settlers in that section. It is feared there will be an outbreak similar to that of several years ago.

LOS ANGELES, August 20.—By order of Major General Schofield the soldiers under Col. Brown, at Drum Barracks, will leave here to-morrow for the old Palo Mission, 30 miles from Los Flores, to quell disturbances among the Indians and reestablish Manuelo as Captain General of the tribes in that region.

Edward Stewart, shot at Los Nietos a few nights ago by Domingo Rues while gathering melons, died yesterday from lockjaw. The affair will be investigated.

The Democrats will hold a grand barbecue at Los Nietos, commencing on the 25th inst.

Steamer *California* sailed this evening from San Pedro for San Francisco.

NEVADA.

VIRGINIA, Aug. 20.—About 3 o'clock this morning a fire broke out at No. 24 D street. It spread so rapidly as to get beyond control until it swept everything on the west side of D street, from Union Hall to Sutter avenue, both sides of E and the west side of F streets for the same distance, and causing considerable damage on the west side of D street. Loss $150,000, on which there was some insurance, but the amount cannot be ascertained to-day. About 50 buildings were destroyed, all wooden. The fire is supposed to be the work of an incendiary. A young man named Hall Shorn has been arrested as the guilty party.

A shooting affray occurred to-day at Gold Hill, between Andy Gorham and a man name unknown, by which an innocent party named Henry Lefower was shot through the fleshy part of the thigh.

VIRGINIA, August 20.—About 5 o'clock this afternoon two men, named Traiser and Malone, had a fight on the Divide, in which the former cut the latter with a knife across the abdomen, causing his intestines to protrude.

ELKO, August 20.—A passenger on the train this morning, offered a ten dollar greenback at the Elko House to pay for his breakfast. It proved to be counterfeit. It is said that there were three or four on the train interested in passing counterfeit notes.

AUSTIN, August 21.—On Saturday night two prisoners, named Jones, Phillips and Charles Fowler, escaped from jail. Yesterday morning some Indians, whom the Sheriff had employed to assist him, came upon the fugitives near Simpson's Park, when a fight ensued, in which Fowler killed Phillips and made his escape. No blame is attached to the Indians or Sheriff, as the killing appears to have been done in self-defense.

ORENA, Aug. 21.—The Battle mills and shingle works at Rye Patch, seven miles east of here, were entirely consumed by fire last evening. The fire was accidental. Loss estimated $40,000. Insured in the Imperial Insurance Co., of San Francisco.

BY STATE TELEGRAPH.

Bohemian Quartz Mines.

EUGENE CITY, August 21.—Joseph Knott, proprietor of the newly erected quartz mill, on the Excelsior ledge, Bohemia District, passed through here, last night, with 37 pounds of amalgams from crushing 16 tons of surface rock.

Fire at Salem.

SALEM, August 21.—A fire broke out in the cellar of Simpson & Co., at 12 M., and it is to the *Statesman* office, completely destroying it, shop, and damaging the adjoining building. The total loss will not exceed $2,000. The fire department did well to stay the flames.

Fire at Oregon City.

OREGON CITY, August 20.—The McClain House, in Rockville, adjoining Oregon City, and occupied by Mrs. Finney, was burnt to ashes to-day, at o'clock P. M. A few articles of furniture and

The Daily Oregonian.

TUESDAY MORNING, AUGUST 22, 1871.

Another Call for Proofs.

To our demand for proofs to sustain the allegations made by the Oregon City *Enterprise* against the official integrity of Gov. Woods and Secretary May, that paper makes answer by dodging the question. It says the proofs exist and will be furnished at a proper time, but intimates that that time is not now. We should like to know why not now? Not only is infamous conduct alleged against the parties, but they are accused of acts which amount to high crimes. If they are guilty they should be brought to justice as speedily as possible. They are yet within reach of justice, and if the "indubitable proofs" of their guilt, as alleged by the *Enterprise*, exist, why is not the proper action taken thereupon? We know of no reason why such men as the *Enterprise* alleges them to be should be tenderly dealt with. Nor do we know of any reason why those who profess to have proofs of thefts committed by them while in office, should refrain from making their infamy public, or from taking steps to call them to account. They are both within the limits of the United States and could easily be brought here to answer. The *Enterprise* would seem to intimate that these "proofs" are in the hands of the present State officials, but that they are being held back till next year for use in the form of a campaign document. This will not do. Crimes are charged against the parties, and the matter is quite too serious to be disposed of in such a way. Besides, if these alleged "proofs" are withheld till the next political campaign they will be looked at merely as trumped up charges for political effect, and nobody will pay any attention to them. People will be disposed to think that if the present officials could hold back these things for two years in order to make political capital in an election, when it was their bounden duty to take steps at once to bring the alleged offenders to justice, there can be little ground for the charges preferred. So much has been said on this subject in an irresponsible way that we once more demand that the public be furnished with the proofs. Gov. Grover, if you have any knowledge of any wrongful conversion of the public funds by the preceding State administration, it is your *duty* to act *immediately*. You know what proceedings should be taken in such a case. Begin them quickly. And, to those who are harping on this subject, one and all, we say again, let us have your proofs. Produce them at once, or stop your accusations.

Views of the "New Departure."

From the first those Democrats who have opposed the "new departure" have declared that a result of the movement would be to alienate the South from the Democratic party. This prediction seems already in the way of being verified. The New York *Herald* says that the "new departure" is so odious to the South that it is operating to turn the tide there in favor of Gen. Grant and the Republicans. The case, it declares, is as plain as daylight. The "new departure of the Northern Democracy cuts the South from under their feet." The *Herald* elaborates the argument in this way:

> The Southern Democracy are mainly identified with the "lost cause," and down to this new departure they were hopeful of a restoration of the the old constitution of Buchanan through the election of a Democratic President and Congress. So long as the national Democratic platform of 1868, declaring the whole budget of the Southern reconstruction measures of Congress "unconstitutional, revolutionary, null and void," remained in force, so long the Southern Democracy, and particularly the old secessionists among them, like Davis, Stephens, Toombs and such, were prepared to do almost anything to assist the Northern Democracy in their political schemes. But this new departure from the North came down upon these men and their followers like a wet blanket. It evoked the indignation and disgust of many of them, and the indifference of many more, touching the Presidential succession. "Are these spurious amendments the best thing the Northern Democracy can do for us?" ask these enraged South Carolinians. "Negro equality and negro suffrage—is this the entertainment to which we are invited? Then we will have none of it. Give us our constitutional platform of 1868, gentlemen, or we take our countenance." We will not follow you into this surrender to radicalism."

The effect of these things is visible, we say, in our stanchest reports from North Carolina and Kentucky. They indicate a general Southern apathy in regard to the national Democratic canvass, from which it is probable General Grant will carry most, if not all but two or three of the Southern States next year.

A Comparison and a Contrast.

"Facts for the people" are presented by the New York *Times* in an exhibit of the differences between Republican financial management at Washington and Democratic financial management at New York. The exhibit is very brief, but for that very reason it is one of the most telling description. First, look on this picture:

DEBT OF THE UNITED STATES.	
March 5, 1860	$2,525,157,259
July 31, 1871	2,225,526,873
Decrease in 29 months	$242,128,386
Rate of decrease per month	$8,140,230

And then on this:

DEBT OF NEW YORK CITY.	
December 31, 1869	$34,907,042
July 31, 1871	100,955,295
Increase in 31 months	$66,048,286
Rate of increase per month	$2,146,719

Were "facts for the people" ever more cogently presented than in this comparison and this contrast? And yet we hear Tammany and men who support Tammany babbling about Republican Extravagance and corruption!

Republican Progress in Kentucky.

Here are the votes cast by the Republicans of Kentucky at the several prominent elections from 1860 to 1871:

1860—for Lincoln	1,364
1864—for Lincoln	27,788
1868—for Grant	98,586
1870—for Congress	87,207
1871—for Governor	74,124

This is a rapid rate of increase. The Sacramento *Union* says: "We think the exhibit very encouraging to the friends of progress in Kentucky, notwithstanding their late defeat by nearly 40,000 majority. We remember when Illinois was Democratic by almost as large a majority, and Pennsylvania by a larger. Time and free schools will work like changes in Kentucky."

According to the San Francisco *Bulletin* there is a marked decrease this year in the number of passengers coming to California, as compared with the arrivals of last year. In round numbers the passenger arrivals since January 1st aggregate 25,000 by water and rail against over 34,000 for the same time in 1871. The departures have been more even, 17,200 having left since January 1st, against 19,700 for the same time last year. In other words, the arrivals this year have exceeded the departures by 7,800, while for the same time last year, the excess was 14,500, and for the same time in the previous year, 17,900.

Rev. O. S. Frambes, long known as an educator in Oregon, has been called to the Chair of Professor of Mathematics in the University of the Pacific, at Fairfield, California.

Marion County Teachers' Association.

GERVAIS, August 19, 1871.

TO THE EDITOR OF THE OREGONIAN:

SIR: The late session of the Marion County Teachers' Association was held in the chapel of the Waldmeet University, beginning on the 15th of August and continuing three days. It was quite largely attended by the teachers of the county. The number of practical teachers present, the zeal with which the various discussions upon school topics were engaged in, and the thoroughness manifested by those leading in the discussions of the subjects treated of in the text books, certainly speak loudly for the cause of education in Marion county. But Marion was not alone. We were glad to welcome to seats among our members, teachers from several of the adjoining counties; and among them, Prof. S. W. King, of La Fayette. The session was considered by all present to be a success, and the Association bids fair to become a permanency in the county.

The following are the names of the officers for the ensuing year: President, L. J. Powell; Vice President, L. L. Rogers; Secretary, A. A. Bonney; Treasurer, Miss Lucy Hay; Board of Examiners, L. L. Rogers, Mrs. Eves, A. A. Bonney, E. P. Smith, Miss Nellie Taylor.

During the session the Association were favored by essays by the following persons, upon the following subjects: Mrs. Eves, "What shall we teach in the public schools?" Miss Ellen Chamberlain, "China;" Mr. H. P. Crook, "The Public Schools;" Mr. Jas. A. Waymire, "Free Schools."

We find also the pleasure of listening to the following lectures, viz: "The Characteristics of the true Teacher," by Prof. L. L. Rogers; "What should be taught in the Public Schools?" by Prof. S. W. King; "Darwinism," by Rev. C. C. Stratton.

The Association were also favored by a short essay (read by proxy), and some wonderful pantomime exercises by Prof. W. S. Smith of the Deaf Mute School, located in Salem.

The following preamble and resolutions were adopted:

Whereas, The future prosperity of the country and the general welfare of society depends entirely upon the right education of the masses; therefore,

Resolved, That we labor earnestly and zealously for the best interests of the common schools, remembering that it is our duty to adopt such modes of teaching as are used and favored by the most experienced teachers of the country; also remembering that the pecuniary compensation for our labors should not be the only incentive to action, nor the principal object of the teacher, but that he should be actuated by the noble thought that to a great extent is left to him the training of those minds which are to rule the destiny of nations.

Resolved, That Physiology should be made a branch of study in our common schools, considered as important as Geography and kindred sciences.

Resolved, That the reading of the Bible should not be prohibited in the public schools, but read as the text book of morality, without note or comment upon mere doctrinal points. Yours truly,

A. A. B.

Items from Tsunius Bay.

ELK CITY, Benton Co., Aug. 18, 1871.

TO THE EDITOR OF THE OREGONIAN:

SIR: The new schooner *Ethorah*, as I expected, has proved a success—making a very quick trip down to San Francisco, only three days running time. I trust she will do as well on her up trip.

The new steamer now in the course of construction at Pioneer, is rapidly approaching completion. She is to be comfortably fitted up for the accommodation of passengers and will have a powerful engine. The steamer *Pioneer* makes the trip to Newport and back every day, and the propeller *Elk*, which has been tied up for some weeks, commences running again to-morrow, so that I hope no more visitors will be disappointed at not finding means of transit on their arrival here. In this connection I would say, (without putting myself forward as a runner) that Mr. J. E. Dixon of this place, can accommodate parties passing through, or wishing to stop for a few days. Mr. D. is fixing up his house (a large and convenient one, and most pleasantly situated on the bank of the river) so as to be able to accommodate more visitors. There is ample stabling, etc., and a beautiful green sward with shade trees for parties who may prefer camping out. A commodious stage, in connection with the house, will shortly run between this place and Corvallis, so that visitors can come through without having to hire special vehicles in Corvallis, which of course, adds considerably to the expense of a trip. BEAVER.

The Philadelphia *Bulletin* says that of the 40,000 immigrants now arriving in this country each month, by far the larger number are moving toward the "great northwest," whose area of settlement and attractions to settlers have been vastly increased by the building of the Northern Pacific Railroad. Beyond doubt this great enterprise is sending a vastly increased flow of population toward the northwestern country, and the Philadelphia paper is right in its conjecture that, "in a few years, as the advantages of the Northwest are more and more understood by the world, a broad belt of towns, villages and prosperous farms will extend across the continent from Lake Superior to the Pacific."

OREGON.

The Washington correspondent of the Eugene *Journal* writes: Under the head of army expenditures, for the fiscal year ending June 30, 1871, the Third Auditor of the Treasury paid $83,884.15 Oregon volunteers for services in the Rogue River Indian war in 1854, Captain Jesse Walker and Nathan Olney. The whole amount on requisitions for the army during the fiscal year ending June 30, was $62,501,848, of which $34,367,014 was for pensions.

At New York the Scott Centennial was celebrated by a large procession through the principal streets to Central Park, where the corner stone of the Scott Monument was laid with appropriate ceremonies. At the banquet in the evening at Delmonico's, many distinguished guests made speeches in response to toasts.

SCHOOL OPENING.—Mrs. Mary Simmons' Private School corner Third and Main streets, will open Monday, 21st inst. Pupils will be taken during the term.

TO CARPENTERS AND BUILDERS.—G. L. Hibbard & Co. have on hand and for sale at very reasonable prices, a large lot of DOORS, BLINDS and WINDOWS of the best quality. They also have a fine lot of Machine Oils, Wagon Timber, Floor and Family Groceries. Persons wishing the above articles will do well to give them a call, corner of Alder and Front streets.

Vichy Waters are curative in Gravel, Stone, Vesical Catarrh, Affections of the Intestinal Tube, Liver, Spleen Hepatic Colic, Fatidal Cachexia, Albuminuria, Chlorosis etc., and most soothing and preventive to Gout, Rheumatism, Rheumatic Gout, Diabetis, etc. For sale at C. H. Woodard & Co.'s Drug Store, Front Street, Portland.

TURN VEREIN.—There will be a meeting of such of our German citizens as are interested in the organization of the above society at the German School House Tuesday, Aug. 22d, at 8:30 P. M.

H. W. DILG, Secretary *pro Tem.*

Forty years' experience have tested the virtues of DR. WISTAR'S BALSAM OF WILD CHERRY, and the result is that it is the best remedy extant for pulmonary and lung diseases; embracing the whole range from a slight cold to a settled consumption. Were it not for its merits, it would long since have died and made no sign."

REMARKABLE CURE OF MRS. HOOVER.

TUALATIN PLAINS, WASHINGTON CO., OREGON, July 22, 1871.

DR. A. M. LORYEA—I have been troubled with Rheumatism for the past twelve years; my joints, especially those of my feet and hands, were badly swollen, so that I could with difficulty go around. My shoulder pained me a great deal and a LARGE BONY SWELLING grew out, so that I could not raise my hand to my head.

Since last spring I have been taking your "Uric Weed Remedy," and find myself much improved. The swelling and pain has left my joints and shoulder and THE BONY GROWTH HAS ALMOST DISAPPEARED and I use my limbs and am far better than I have been for years.

M. HOOVER,

Ordinance No. 1,043.

AN ORDINANCE TO PROVIDE FOR THE TIME and manner of improving that part of South Front street lying between Sherman and Sheridan streets.

The City of Portland does ordain as follows:

Section 1. The proposed improvement of that part of South Front street lying between the center line of Sherman street and the north line of Sheridan street, shall be completed as hereinafter provided, on or before the fifteenth day of October, 1871.

Section 2. The surface of the street shall be cleared of all plank, timbers, or other obstacles or perishable materials (sidewalks, crosswalks and plank roadways of the proper width and grade excepted). If the obstructions are not removed by the owners of the adjacent lots within three days from the service of notice by the Street Commissioner they shall be removed by and become the property of the contractor.

Section 3. The improvement shall consist of grading and laying sidewalks, crosswalks and plank gutters where necessary.

Section 4. The work to be done and materials furnished shall correspond with the provisions of and under the restrictions contained in section 6, 7, 8, 9, 11, and 12 of Ordinance No. 735, entitled "an ordinance in relation to the improvement of streets."

Section 5. The Contractor shall take entire charge of the work during its progress and shall be responsible for any loss or accident resulting from carelessness or neglect.

Section 6. The Committee on Streets and Public Property are hereby authorized to advertise for proposals, receive bids and enter into contract with the lowest responsible bidder or bidders for the improvement specified in this ordinance.

Section 7. The improvement shall be completed to the satisfaction of the Committee on Streets and Public Property and the Street Commissioner.

Passed the Common Council August 3, 1871.

S. T. 1860—X.

THE GREAT WORLD TONIC!

PLANTATION BITTERS

This Wonderful Vegetable restorative is prepared from pure St. Croix Rum and Calisaya Bark, known the world over as possessing wonderful tonic properties. As a Tonic and Cordial for the aged and languid it has no equal.

PLANTATION BITTERS

Just the thing for the morning lassitude and depression of spirits caused by late hours and what is called fashionable dissipation.

PLANTATION BITTERS

Of all the appetizers it is the most infallible, and the impulse which it imparts to the digestive functions soon puts Dyspepsia to flight.

PLANTATION BITTERS

It is the foremost remedy of the age. The specific of every species of debility, general or local, constitutional or casual.

PLANTATION BITTERS

A wine glassful taken half an hour before breakfast, dinner or supper, quickens the flow of the gastric juice, and thereby promotes hunger.

PLANTATION BITTERS

"By its use I dispose of three good square meals per day, with a good relish, have no pains and have gained sixteen pounds in eight weeks; sleep well, and consider myself a healthy man."

PLANTATION BITTERS

Taken moderately, three times a day, will give you strength, health and a cheerful and contented disposition.

PLANTATION BITTERS

Will give rest and quiet to those who cannot sleep, from unsatisfactory condition of their affairs.

PLANTATION BITTERS

Will restore tone and vigor—just the thing for mothers nursing.

PLANTATION BITTERS

"Well, they cured me of every distressing symptom in ten weeks and you had better follow my example.

PLANTATION BITTERS

If you want pure rich and electrical blood—blood that gives tone to the system, the "rose tint of health" to the cheek—Try it.

PLANTATION BITTERS

Thousands of families in Ohio and Mississippi valley, and on the border of the southern rivers and swamps, will not be without out.

PLANTATION BITTERS

Which is the cheapest? A dollar bottle of Plantation Bitters, or a physician at two dollars a visit?

PLANTATION BITTERS

"The value of such an antidote cannot be explained in words."

PLANTATION BITTERS

Will restore the vital energy, repair indigestion, and correct the sluggish circulation of the blood.

PLANTATION BITTERS

Is an unequalled invigorating cordial for the aged as well as for the young.

PLANTATION BITTERS

Is unsurpassed for weak and delicate persons, on their requiring a gentle stimulant.

PLANTATION BITTERS

"I began taking your Bitters the next day, and am perfectly happy to tell you that they have completely restored my health, strength and cheerfulness."

PLANTATION BITTERS

"I find nothing so good for headache and languor to which my daughters are at times subject. It gives them a splendid appetite, and they eat like pigs."

PLANTATION BITTERS

"By advice of my physician, soon after my baby was born I commenced taking them, and they have done me so much good."

PLANTATION BITTERS

Are sold everywhere.

COSMOPOLITAN HOTEL

CHANGE OF PROPRIETORSHIP.

H. H. PEARSON,

Late of the Russ House,

HAVING BOUGHT THE INTEREST OF WESLEY Tubbs & Patton, of the Cosmopolitan Hotel, has secured a lease for a term of years of this well known and elegantly furnished Hotel. His previous reputation assures its being kept in first class style, while in order to keep pace with the times he intends to make important reductions in the scale of charges. His intention is to make it a family and business house, while his large connection with the traveling public, warrants him in expecting a large amount of country. Pacific Coast and Eastern patronage. The prices will range from two to three dollars a day for ordinary accommodations. Board by the week or month as per contract. The Table will be kept on the most liberal scale and many improvements introduced. The spacious reading room is the finest of its kind in the city, while the furniture and fittings generally are superior to those of any hotel in San Francisco. The house will be thoroughly overhauled. Mr. PEARSON assumes proprietorship this day, August 1st.

TUESDAY MORNING, AUGUST 22, 1871.

CITY.

CITY TAXES—WATER WORKS.—We clip the subjoined extract, letter and editorial comment from the Binghamton (New York) *Times*, under date of August 33. They will best explain themselves:

CITY TAXES.—The Binghamton *Times* of the 15th June says: "The city tax this year is $4 60 on $100. How is that for high?" This is certainly high, $4 60 on the $100. The city tax in Portland is 85 cents on the $100. Has the Holly Water Works anything to do with the tax?

PORTLAND, Or., July 18, 1871.

Editor Binghamton Times: This community is, at this time, very much exercised on the subject of Water Works. Many are in favor of the Holly system, while others favor the old system of reservoirs, and are circulating all kinds of reports against the system now in use in your city. I take the above extract from the Oregon *Bulletin*. By answering the question contained therein you will oblige many citizens of this town.

Respectfully, etc., L. BROOKE.

We are happy to inform our friend in Oregon that our citizens are fully satisfied with the Holly system. Its success here has been all that could be desired, and its cost much less than would have been had the reservoir system been adopted. If the city of Portland has a good supply of water at a reasonable distance, with sufficient "head" to obviate the necessity of pumping, the reservoir plan might be the best. The high taxes raised here this year are principally for other purposes—sewers, pavements, new school buildings, etc., all of which are for the permanent benefit of the city, and which will make the taxes a good investment.

RAILROAD NOTES.—From one of the Corps of Engineers on the Oregon and California Railroad, we obtain the following:

Work on the new railroad bridge across the Willamette above Harrisburg, is being pushed ahead as rapidly as possible. The undertaking, however, is no small one. The bridge, when completed, will be the longest one on the coast. It will necessarily require several months to complete the proposed structure. This bridge is one of the Howe Truss Patent, with a drawbridge in the middle, and a clear span of 200 feet. On the eastern side of the river there is about one mile of trestle work, and on the west side about two miles of trestle work before the bridge is reached. The piles have been driven for these distances on both sides, but have not been sawed down to the proper grade and capped. This will be done by the time or before the completion of the bridge.

Grading has reached a point four miles beyond the summit of the Calapooia mountains, and is being pushed on with all speed. There is a force of about 1,500 men employed at different kinds of work at the front. If the bridge spanned the Willamette, the cars could soon be running to Eugene City—as soon as the rails could be placed down. Our informant stated that he was confident that the road would be completed and in perfect running order to Oakland by Christmas, if the iron arrived and could be forwarded to the front in time.

TEMPERANCE LECTURES.—The talented editress of the *Whitman's Pacific Coast Journal*, Mrs. Carrie F. Young, delivered a lecture on Temperance, at the basement of the Congregational Church, last evening. The room was crowded to repletion, and many were unable to procure accommodations and went away. The speaker is a lady of medium height and build, rather dark complexioned, prominent forehead, somewhat angular in features, but with an expression not unpleasant. She is aged, judging from appearances, about 35 years. Her voice lacks that degree of softness and rotundity which strike the ear in pleasing cadences, but is flexible and well modulated. Her elocution is quite fair, while her gestures are easy, free from all restraint or stiffness, and her language copious and quite fluent. Altogether considered, Mrs. Young is a logical and forcible lecturess, and her style cannot fail to elicit the most earnest attention of her audiences.

COL. JELUS PIPES.—Mr. Stephen Massett arrived yesterday morning from San Francisco, and we hope that he will be warmly welcomed by our people. The papers, East and West, speak very highly of his ability. The New York *Herald* has the following in relation to him:

"Mr. Stephen Massett's Lectures.—There are few pleasanter ways in which an evening can be spent than at the entertainments with which, under the title of 'Drifting About,' Mr. Stephen Massett, the popular song writer and humorist, is now amusing our public. Rich in incident, overflowing with fun, and passing rapidly from the gay to the pathetic, his narratives of adventure keep the interest of his auditors constantly on the stretch, and move them alternately from smiles to tears. Mr. Massett's lectures have attained great popularity."

ERRATUM.—We have subsequently learned that the cause of the sudden and simultaneous extinguishment of the gas burners of the new Odd Fellows' Hall, during the dedicatory ceremonies on last Saturday evening, was not attributable to the wind. In endeavoring to regulate the supply of gas, the individual entrusted with that duty, turned the cock too much, and thus cut off entirely the supply.

BOOKS AND STATIONERY.—In another column will be found the advertisement of the old pioneer book seller and stationer, S. J. McCormick. It will be seen that arrangements have been made by Mr. McCormick for the purchase of goods in his line at Boston and New York. This will enable him to sell at low rates and small profits. He defies competition.

NEW FIRM.—Ward S. Stevens and O. F. Bell have associated themselves together under the firm name of W. S. Stevens & Co. They announce that they are ready to transact a general accountant business; also searchers of records, conveyances, notaries public, and legal writers. See card.

FOR DRAINAGE.—A number of earthern pipes have been brought to this city by steamer from up the valley. They are to be used for drainage purposes. These pipes were burned at Buena Vista, Polk county, and appear to be manufactured from clay of moderately fair quality.

ABOVE THE WATER.—The new office of the Oregon and California Railroad and North Pacific Transportation Companies is being raised about three feet above its former site. The high water during the month of June has demonstrated the necessity of this "change of base."

COLUMBIA CITY AND SALEM R. R.—A gentleman interested in the building of this road, informs us that it is the intention to have the road completed from Columbia City to Cornelius' Pass, a distance of 16 miles, by the first of November next.

BOILER REPAIRED.—A large boiler used in connection with the Oregon City Woolen Mills, was brought down for repairs some weeks ago, and taken to one of the city foundaries. It was taken back this morning on the *Alert*.

A LARGE PROSPECTIVE CITY.—The plat of the new city of Columbia, contains an area of 14,000 acres. When all this howling wilderness "gets filled up," Columbia City will not be a town to be "grinned at."

PASSED WEST.—The dispatches announce that the following persons passed west on Sunday: E. Harriet, M. H. Davis, wife and sister, W. Jackson, of Portland; and W. Whitney and wife, of Salem.

SPIRITUAL MEETING.—There will be a meeting of the Spiritualists of Oregon, at the Grove at Woodburn Station, 17 miles from Salem, for three days, commencing on Friday, Sept. 22d.

WASHINGTON STREET.—This street has been planked from East Park to Tenth. Washington street is now among the most pleasant streets in the city, either for a drive or quiet promenade.

WILL LECTURE AGAIN.—Mrs. Carrie F. Young will lecture at East Portland on Friday evening next. She will also lecture again at the Court House in this city, before her return.

LUMBER SCOW.—A scow loaded with cedar lumber came up the river on Saturday last. The lumber was sawn at Nicholai's mill. There was about 65,000 feet on board.

BOUND EASTWARD.—Two emigrant wagons and teams were taken up the river this morning. A small drove of loose cattle were also taken away.

THE BENEFIT.—A fair audience attended the benefit given at Oro Fino Theater last evening, to Mrs. Beatty.

DR. LINDSLEY'S LECTURE.

The regular Sunday evening lecture which was delivered at the First Presbyterian Church, by Rev. A. L. Lindsley, was well attended by a numerous and intelligent audience.

The lecturer took as the basis of his subject, the 27th chapter of Acts, from the 22d to the 26th verses inclusive. He referred to his last lecture, marking the gradual progressive development made in the art of navigation, to the present time. He spoke of the balmy days of the Roman Empire, when its navy rode in triumph the waters of the then known seas; the gentle flags of foes wafted on the breeze, and of the pirates infesting the shores of Africa, and of the long and sanguinary struggle for their final extermination.

Paul, during his season of hardship, privation and trial, appealed to the highest tribunal known to Roman law—Cæsar—as was the privilege of all Roman citizens, and in accordance with that appeal, he was on his way to the "Eternal City," when on the voyage, an account of which included the text, in charge of some of the chosen guards of the Empire. That guard which always stood around the Emperor, and in many instances named and made the Emperors of Rome, Dr. Lindsley described in beautiful and eloquent language the different routes from where Paul was conveyed to the seat of Roman power. The route chosen by the great Apostle's guards displayed to the voyagers, as they sailed along, grand and ever changing scenes.

On one hand was Cyprus with its beautiful women, its genial and salubrious climate, and on the other side was the place where Emperors, Senators and landing citizens delighted, to erect their costly and sumptuous palaces, and were in luxuries of home and exemption from all cares of labor or duty. Then came the classic shores of sunny Greece; the land where attic wit and attic poetry have filled the world with the intellectual delights of the ancient language. These scenes which were gliding before the vision, were just the scenes that could be appreciated by such a genius as Paul. The vessel used in making this voyage may have been a three decker, or a craft modeled after Noah's Ark. The commerce of Rome at that time was at the zenith of its career. Vessels came ladened with spices and fragrant perfumes of India, the rich fabrics and shawls of Persia, concentrated in one great mart in Rome. Here, too, were accumulated the varied and rich products of the fertile valleys of the Nile; and here was sent from other quarters of the world wines of great value and delicious brands, to grace the festive boards of the Roman Patricians. The beautiful workmanship from another section found ready sale, and the corn ships of Alexandria came laden to the market of the world. Many of these vessels, as ascertained by correct measurement, had a carrying capacity of 1,000 tons—driven by the wind, plunged hither and thither by the turbulent seas.

We read nowhere in ancient literature of an ancient voyage resulting in a ship-wreck, which is portrayed as vividly as is contained in this chapter of the Acts. Is not, then, the Bible a grand old book? Scarcely is there a single page over which we do not love to ponder with reverence, and how does some of its most sublime and striking passages challenge our most devoted admiration. We read in Roman history of transport ships going from Asia to the "Eternal City" on the banks of the "yellow, melancholy Tiber," but none are so vividly described as the voyage and shipwreck of Saint Paul. In those days the mariner's compass was among the many useful arts of modern civilization, long undiscovered. The magnetic potence of the lodestone was undreamed of among the most visionary—was used as a toy in the hands of children, and men looked on and laughed at it in their hands. The voyagers guided themselves by the stars at night and the sun or shore by day. At night, one glance at the starry firmament to catch their course, they put the vessel before the breeze, and, as expressed by some in our day, "let her drive."

In the voyage of Paul, neither stars nor sun appeared to the bewildered mariners for many days. The lecturer then proceeded to describe more particularly the voyage from the place where the guards made a three months stay, to the city of Rome, and the various places passed on the voyage. Mount Vesuvius at whose base reposed in seeming security and happiness, the great city of Pompei, that at a later period was so utterly overwhelmed and buried forever from the light of Heaven by the liquid lava belched forth from the hidden furnace in the bowels of the earth.

The lecturer spoke at some length on the present time when vessels are modeled to plough the watery deep like a thing of beauty and life. He spoke of modeled vessels and from the hull we look aloft and find a net-work of ropes and canvas, or get aboard a steamer, and looking into the hull, we are filled with wonder at what has been achieved in the art of navigation since the fall of the Roman Empire.

He spoke of the mission of these vessels to draw all mankind in a close and common brotherhood; also of that wonderful invention, the submarine telegraph, lying along on old Ocean's bed with its continuous click, click, transmitting news with the speed of lightning, so that it would appear that time and space were almost annihilated. Times and space fails us to follow Dr. Lindsley through all his interesting, and in part, eloquent lecture. It was well attended, and was listened to throughout all its details with a profound and unflagging interest.

THE DALLES FIRE.

The following additional information concerning the recent destructive conflagration at the Dalles, we have procured from a gentleman just from that place:

ORIGIN OF THE FIRE.

On last Thursday, 17th inst., about half past 11 A. M., two small boys, sons of Dr. Miller and Mr. Wess, aged four and five years respectively, were playing in an old stable filled with straw. They were observed suddenly to stop playing and scamper through a store, at the rear of which the stable was situated. The gentleman in the store noticed something unusually strange and suspicious in the countenances of the boys. He took no further notice, however, of them; his attention being called to something else. A smell of fire was soon after detected. The gentleman recalled to mind the boys' actions, and went into the stable to search. Opening one of the doors he discovered a faint streak of smoke curling through one of the cracks. Still smelling straw burning, he crossed the stable and opened the door which led into the addition where the hay was stowed away. To his surprise and dismay he discovered the hay in a light blaze. Every effort to extinguish the flames only made them burn more fiercely. The gentleman soon gave up the attempt and ran into the streets and

GAVE THE ALARM.

In less than three minutes the entire stable was enveloped in flames, and the fire began to spread alarmingly rapid. The fire department was promptly on hand, but could render but little assistance. The fire spread so fast, and was augmented by a brisk breeze which was blowing at the time the fire commenced, and increased with the fire, that little or nothing could be accomplished.

By great exertions the destructive element was kept back from crossing the street. This prevented the town from being swept clean to the foot of the bluff. The Congregational Church was saved from the flames almost by miracle. The dwelling house of Rev. Mr. Condon was also saved by spreading wet blankets on one side, which was exposed, and the other side was shielded by a number of green apple and pear trees growing near the house.

SO RAPID

Was the spread that houses situated on blocks quite remote from the flames, took fire from the falling coals and cinders, which were swept over the roofs of the intervening buildings and were reduced to ashes, while those houses much nearer the fire were being consumed, or had not caught the flames at all. The greatest excitement prevailed while the flames were devouring everything combustible which came in their way. Our informant thinks that considerable household effects—furniture, bedding, etc., could have been rescued—which was destroyed—if less excitement had existed. The large saw and planing mill, that was among the first destroyed, was a clear loss alone of about $30,000. The total loss could not be short of $100,000.

SOME IDEA

Of the force of the gale can be formed, when two large stacks of grain situated on the bluff, over 100 feet above the town, and nearly half a mile away, took fire from the sparks borne there and were consumed before the owner could save his crop. A considerable portion of his fence did not escape the general destruction of property.

DEEP WATER.—There is 21 feet of water in front of Columbia City. This will admit the landing with ease and safety of ships drawing the largest depth of water.

TO DISCHARGE.—The bark *Wellfoot* dropped to the wharf below the bone yard to discharge the locomotive intended for the west side railroad.

SCAPPOOSE PASS.—We learn that Gen. Tilton contemplates shortly an examination of this pass with a view to laying out the road to Salem.

DEEDS FILED FOR RECORD.

PORTLAND, Aug. 21, 1871.

W. W. Chapman et al, wife to the Society of the Holy names of Jesus and Mary, lots 1, 2, 3, 4, 5, 6, 7 and 8 in block 151; consideration, $6 50; confirmatory deed.

Medical Mistakes.

It took the faculty about a thousand years to discover that the best way to cure disease was not to render the patient too weak to contend with it. Within the last twenty years, however, the whole system of medical practice has been changed for the better. In diseases or complaints caused by excessive heat, for instance, the doctors no longer recommend the reduction of the invalid's strength by prostrating medicines. The vast success which has attended the use of Hostetter's Stomach Bitters as a remedy for debility, has given the most prejudiced members of the old school an insight into the only true and rational theory of cure. Cantharides, calomel, and overpowering doses of opium, are now among the obsolete nostrums of another age. The lancet, once as much the legitimate weapon of the physician as the sword is of the soldier, is seldom drawn from its case. The principle of life is no longer drained from the veins by the quart, and water-gruel for the strengthless invalid has ceased to be considered appropriate diet. Vigor is the motto of the rational member of the profession, and they understand, at last, the value of a sterling vegetable tonic. So also, with the people at large, and without consulting medical men at all, they have adopted the bitters as a household remedy, thereby counteracting both cash and health.

Note the fact, that Hostetter's Stomach Bitters is sold in bottles only, never in bulk, and that the abortions springing up in various parts of the country, and sometimes offered as substitutes for the great national specific, are all utterly worthless.

REAL ESTATE
REAL ESTATE
Now is Your Time to Invest.
STITZEL & UPTON,
REAL ESTATE BROKERS,
Corner Front and Washington Streets,
PORTLAND, OREGON,
Agents for the Sale of Blocks and Lots in
HOLLADAY'S ADDITION
TO
East Portland!
TO OUR PATRONS AND THE PUBLIC GENERALLY desiring to make SAFE and DESIRABLE investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.
No one that has ever visited this body of land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what a
Fair View of the City of Portland and Willamette River
Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.
The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.
IMPROVEMENTS TO BE MADE!
Aside from gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. Within one year that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.
TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.
NO QUESTION AS TO TITLE
The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Weidler.
☞ Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Offices of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.
STITZEL & UPTON

PICKINGS.

The faith that does not throw a warmth as of summer around the sympathies and charities of the heart, and drop invigorations like showers upon the conscience and the will, is as false as it is unsatisfying.

The last, best fruit which comes to late perfection, even in the kindliest soul, is tenderness toward the hard, forbearance toward the misunderstanding, warmth of heart toward the cold, and philanthropy toward the misanthropic.

A grand banquet will be given in London on the 15th inst., in celebration of the centenary of Sir Walter Scott. Hepworth Dixon will preside, and it is anticipated that four hundred of the most distinguished people of Great Britain and the continent will be present.

A man in Yonkers has discovered a novel and expeditious method of "raising calves." He takes a morse into the Bowas Society at his church and lets it loose. All the ladies jump up on the chairs and window-sills. The man himself has been vaccinated, and so of course he isn't afraid.

FINANCE AND COMMERCE.

MONDAY EVENING, August 21, 1871.

Gold in New York, 112¼.

Currency, buying, 88¾; selling, 89¾.

Steamer *John L. Stephens*, with cargo assorted merchandise, left Wednesday morning from San Francisco. She is advertised to sail on Wednesday evening at 5 o'clock.

By private letter date at Honolulu from consignees of the bark *Josh. Fithenburg*, in consignee here, we learn that the silks sub took for the Hawaiian Government were delivered entirely satisfactory to the Government, and she was loading rapidly with cargo of sugar, and would sail from that port for this city on or about the 5th of August. She is due here any time after this week.

The latest advices from Europe at hand state that in Germany the harvest will be late; in France the weather is fine and harvest in progress in the neighborhood of Lyons, and the *Mark Lane Express* generally concurs in estimates in England are that less will be required for the coming year than for the last. The raising of Indian corn for feed in England is rapidly extending.

By the bteamer we are in receipt of advices from San Francisco to August 18th, from which we learn that market for wheat is very inactive. All vessels loading have their cargo engaged. There are many orders from the United Kingdom for wheat, but agents are limited to $2 15 per centals, or 10½ d., at present rates of freight. Nearly all parties are made are still [illegible] who are active in filling orders for China and [illegible] during further advices from England as the [illegible] of the world for breads very much upon the harvest there.

The exports from San Francisco for the first seven months of this year are as follows:

Seven Months.	Merchandise.	Treasure.	Total.
1869	$9,850,230	$17,145,026	$27,000,256
1870	21,340,557	25,775,912	37,356,469
1868	21,100,201	24,155,618	39,531,819
1869	10,220,642	28,616,479	38,389,112
1870	8,858,734	32,046,535	29,904,599
1871	9,237,609	9,973,138	17,190,047

Owing to rapid and cheap transportation from the Atlantic to the Pacific our market in groceries, dry goods, etc., is regulated to a great extent, if not entirely, by the market East; so in studying the probable future markets we have to give statistics from the principal eastern ports. The stock of sugar in New York August 1st compares as follows:

	1868.	1869.	1870.	1871.
[illegible]	bbls. 85,787	126,367	91,411	77,682
Porto Rico	14,789	16,823	3,815	4,414
English Islands	3,158	2,248	1,000	1,617
Cuba	2,145	849	573	2,322
Martinique	305	2,692		
Total	bbls. 106,184	171,715	99,433	86,035
Melado[illegible]		1,809	1,023	19,037
[illegible]	44,976	159,438	112,995	89,447
Manila	bags. 11,998	69,426	467,664	367,228

Batavia	[illegible]	[illegible]	583	10,000
[illegible]	[illegible]	[illegible]	[illegible]	7,911
[illegible]	[illegible]	[illegible]	[illegible]	2,810
[illegible]	[illegible]	[illegible]	[illegible]	[illegible]
Singapore	[illegible]	[illegible]	[illegible]	[illegible]
English Manila	[illegible]	[illegible]	[illegible]	[illegible]
[illegible]	[illegible]	[illegible]	[illegible]	[illegible]

The consumption East has steadily increased. The increased crop South will meet the increased consumption while there remain short crops at several places of supply. The following comparison of stocks in Cuba may be of service, as that island has supplied to a great extent the demand in the Eastern States and Europe:

Stocks in—	1871.	1870.	1869.
Havana	31,488	20,697	43,711
Matanzas			
Total	boxes 350,633	531,119	342,567
Stocks in	1871.	1870.	1869.
Havana	hhds. 4,216	4,873	4,452
Matanzas	1,214	2,850	2,730
Total	hhds. 5,430	7,723	7,182

These tables are made up to July 31st of this year. The following is the movements of sugar at the four principal ports of the United Kingdom, up to July 6th:

	1871.	1870.	1869.	Dec.
Imports	343,745	351,812	[illegible]	8,056
Consumption	315,180	279,904	284,076	35,276
Stock	167,357	193,999	[illegible]	26,622

It will be seen that the [illegible] in the United Kingdom this year, as in the United States, are short, and the consumption has increased.

Merchandise Reports.

FLOUR—The dar and for standard brands is fair, with stocks of old being rapidly reduced. The market in San Francisco continues to advance on the basis of 6@6½ cts. per lb., and probably rate lower than higher, unless unfavorable crop advices are received from Europe so as to affect the prices of new breadstuffs by causing shippers to pay more. Their highest limit is now at $6 per hundred pounds. We note sales to-day for extra, $5 per bbl, and $5@5 50 per bbl for superfine. The amount exported in [illegible] ports, by *General Pillow*, was 3,416 qr sks.

WHEAT—There is a general complaint among millers and shippers here that agents in the country, anxious to make purchases, exceed instructions in purchasing. The consequence will not receive it and the loss has to fall on agents. The excess in some cases paid by agents above instructions, is from 5 to 10c. per bushel. Prices here, $1 05@1 12 per bushel.

OATS—There is a light demand at from 2½ to 3c. per lb. for feed.

CANDLES—There is a very active market in San Francisco, with a strong upward tendency. The factories have paid ahead and stocks in first hands are small. Prices have advanced fifteen cents per box.

ROPE—Advices from San Francisco gives an advance of 1c. per pound. The price here has advanced to sympathy with the rise there.

STAVES—Redwood, grader held very firm. The *Full Moon* to arrive will have about 5,000 kegs of Island staves on board. We note sales of a beautiful grade of Parrisands at 7½c. per pound.

WOOL—The receipts from January 1st to August 5th, in New York, is 9,900 bales in excess of receipts for the same period last year. The movement for the epidemic in Boston, Philadelphia, and [illegible] market again available. Prices in New York are firm at former rates.

Markets.

SAN FRANCISCO, August 21.—Flour—Unchanged. Wheat—[illegible] ctls. at [illegible] shipping) [illegible]; $2 22½. 2,540 sks choice milling; $2 25.
